**MALABAR INSTITUTE
OF ACTUARIAL AND
DATA SCIENCES**
(Proposed)

INVITATION TO SEMINAR

The demand for actuaries in India is growing rapidly, fuelled by expanding insurance, pension, and financial sectors. With advancements in data science and analytics, actuaries are crucial in risk assessment, financial forecasting, and strategic decision-making.

Join us in this seminar as we bridge the knowledge gap and provide students with essential tools to excel in actuarial and data science fields.

We are excited to introduce the Malabar Institute of Actuarial and Data Sciences (MIADS), a proposed Centre of Excellence to mentor and guide students in actuarial and data science careers.
